Photo Tips

1. Come when the sun sets during low tide
2. Use the large tide pools
3. Make sure there are no waves and no wind

These 3 tips will help you get the best shots!

from a low angle!

Chichibugahama Beach

Mitoyo, Kagawa Prefecture

Stunning Chichibugahama Beach is a long sand beach stretching about 1km.
During low tide, the tide pools create a reflective, mirror-like view of the sky.

Chichibu Club - Protecting the Beach for Over 20 Years

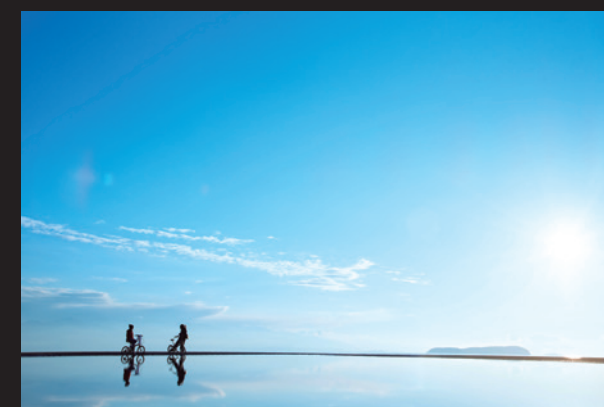

Chichibu Club was founded in 1995 to protect the beautiful Chichibugahama Beach.
This volunteer group, which started with 7 members and has grown to over 70,
cleans the beach on the first Sunday of each month.

"We want future generations to be able to love and
enjoy this amazing beach."

Aiming for the most beautiful beach in Japan
